BAGGING MACHINE FOR MULTIPAIR SOCKS OR OTHER PRODUCTS

AUTOBAGGER LARGE

SEAMLESS PACKAGING AUTOBAGGER LARGE

Autobagger Large is a multi pair (from 3 to 12) bagging machine for men's and sport socks. The operator loads the socks onto the feeding belt and a mechanical system piles up the socks and inserts them into the bag. The bags are closed by means of two electric welding bars. The operator loads the socks onto the feeding belt and a mechanical system piles up the socks and inserts them into the bag. The bags are closed by means of two electric welding bars. This bagging machine is equipped with a double magazine for bags with automating shifting, this allows a continuous feeding of bags, avoiding stops and increasing productivity. The products loading station can be placed in three different ways: automatic in line loading, manual right loading and manual left loading.
