AUTOMATIC PACKAGING LINE

SMARTFOLD + SMARTBAG

WOMAN STOCKINGS PACKAGING SMARTFOLD + SMARTBAG

Automatic packaging line for stockings, knee-highs and pantyhose in polypropylene bags. Automatic packaging line comprising of an automatic folding module SmartFold connected to a bagging unit SmartBag. This system can be connected to the boarding machine or manually loaded from a dedicated conveyer. A servo-motor on each conveyer of the folding module allows a fine tuning of folding length for each individual style to store into machine memory. SmartBag has the possibility to adjust electronically the bag width to process different sizes. Machine can operate with V, C or L boards.
